InfoShip®/Vx

*Your High Performance
Multi-Carrier Parcel Management Solution*

In the world of high-volume shipping, your logistics challenges are a constantly moving target. One day, you may be managing unexpected changes in carrier demands, and then a sudden increase in shipping volume the next.

InfoShip®/Vx was designed to provide you with flexibility and agility you need to address these issues, while improving your shipping processes in the three areas that matter most:

BEST IN CLASS PERFORMANCE

SPEED

When it comes to shipping software, processing speed is everything. InfoShip®/Vx can process up to 25,000 transactions per hour.

RELIABILITY

If you're shipping thousands of packages per day, you need to know your system won't go down. Our uptime is above 99 percent.

SUPPORT

Our dedicated team – who will also install your system – are just a phone call away, 24 hours a day, seven days a week, 365 days a year.
