Introducing
InfoShip Enterprise

Cloud-Forward Architecture to Scale Your Omnichannel Shipping

Creative Logistics Solutions' new InfoShip Enterprise solution is the next iteration of InfoShip/Vx and was built with modern omnichannel shipping in mind. The cloud-enabled software can be deployed seamlessly to all distribution environments, unlocking an unparalleled, scaleable shipping solution. InfoShip Enterprise will be open for limited enrollment during 2023.

Major Upgrades to Meet the Evolving Demands of the Industry

- Service-oriented architecture that allows rapid scaling across all shipping locations
- Modern browser-based applications to enable your omnichannel shipping solution
- Containerized software for efficient deployment in a variety of cloud or on-premise environments
- Low-code/no-code features that empower implementers and users to make needed changes quickly

Fast, Flexible, Scalable

- Optimized high-speed processing for carrier rating, service decisions, document generation, and more
- Centralized shipping solution which facilitates multiple locations and channels
- International, domestic, and regional carrier service selection capabilities
- Enterprise-class architecture that can process hundreds of thousands of shipments/ day with high availability

Industry Expertise Suited for the Enterprise Shipper

- Pre-built integrations into industry-standard ERP, OMS, WMSs
- Dedicated, US-based, white glove customer service available 24/7/365
- 25+ years of experience and hundreds of implementations
- Certified carrier solutions for parcel, LTL, and TL
